

'The Right Combination'

Principals and S.A.F.E. TEAM®

School Principals create opportunities - and learning environments - where all students and faculty can achieve their highest potential.

S.A.F.E. TEAM® supports School Principals as they strive to improve student achievement by:

Increasing Family Involvement:

Through experience, the S.A.F.E. TEAM® understands the priorities for success needed to actively involved families. The S.A.F.E. TEAM® program helps Principals build effective networking between community and family partnerships. It makes communicating your school's vision with volunteering parents, grandparents, etc. easier so it can be reinforced at school AND home.

Providing a Safe Learning Environment:

As family members volunteer for their school's S.A.F.E. TEAM® program, they will have the opportunity to partner with faculty and staff to provide a safe and secure learning environment during the school day AND school-related events. The S.A.F.E. TEAM® program gives school leaders more flexibility when managing their school, allowing them to respond to the needs of their students and families.

Increasing Student Responsibility:

Engaging Families in the S.A.F.E. TEAM® program allows for a school climate that promotes the intellectual growth, academic achievement, and the development of physical well-being, character and leadership in youth. The administrators, faculty students and parents can partner together to improve the quality of education and increase personal responsibility.
